

Planning Your Move Checklist

Make sure that you have the same Moving Day as everyone else in your household. This will ensure that you will have the same Moving Day.

Planning Your Move Checklist
During Your Move
Delivery Day

	Plan to be available during the entire delivery to check off the inventory and to show the moving crew where to place your items.
	Arrange to have a helper if possible so that one person can check off the inventory as it is unloaded and the other can assist movers to place the belongings in the appropriate places.
